

## AN AGREEMENT ON OSTEOPATHY

Substitute Was Ordered to Third Reading in the Assembly.

## NO VOTING MACHINES

Barbers' License Bill Given Another Chance—Will Adjourn May 4.

## NEWS FROM THE LEGISLATURE

Madison, Wis., April 18.—The agreement between the regular physicians and osteopaths was ratified by the assembly today and ordered to third reading.

The constitutional amendment legalizing voting machines in Wisconsin was again killed in the senate and will probably remain dead though Senator Mills gave notice of a motion to reconsider.

The barbers' license bill which passed the assembly but was slated for death by the senate health committee was given another chance by reference to the committee on state affairs.

The senate refused to agree in the committee amendment fixing the date for final adjournment for May 11 and passed the original resolution, making the date May 4. It is expected that the assembly will amend this.

The assembly bill admitting infants to the state public schools at Sparta which aroused lively opposition in the early stage was advanced to third reading in the senate, but had opposition.

## TO INCREASE RAILWAY TAX.

Primary Election Matter Is Very Much Up In the Air.

Madison, Wis., April 18.—The minority report in favor of the tax commission's bill for increasing the railway tax—about \$500,000 came into the assembly last night signed by Messrs. Hall, Stevens, and Frost, the majority having recommended the bill for postponement. The minority claims that the railroads paid in license fees on the earnings of 1899 \$1,549,340, while the amount justly due was \$2,402,312. Under the bill in hand it was proposed to tax them \$2,095,285. The majority gives as a reason for the report the discrepancy in figures on personal property between the tax commission and Governor La Follette in his message.

For Agricultural Building. Senator Vilas spoke in the assembly chamber last night in behalf of the bill which appropriates \$185,000 for an agricultural building for the university. The bill also appropriates \$65,000 for a commercial museum. The appropriation for farmers' institutes is increased from \$12,000 to \$16,000. Judge Noyes of Milwaukee and others also spoke.

Primary Election Bill. Primary election matters are very much up in the air today. The assembly committee on privileges and elections met yesterday and discussed the bill informally but took no action of any sort. It will meet again this afternoon with the same result. Chairman Steiger says that it will be reported some time next week, if possible, and that is the only obtainable definite statement in regard to the bill.

Adjournment Date Is in Doubt. In the senate Chairman Whitehead of the joint committee on rules reported the Kreutzer resolution with an amendment providing that the legislature adjourn sine die on May 11. The resolution, as introduced by Mr. Kreutzer, provides that final adjournment be taken on May 4. The general impression is that the resolution will be further amended before it is adopted by both houses, as at this time it is impossible to say with certainty when the legislature will be able to adjourn.

## OSTEOPATHS ARE SATISFIED.

The New School to Be Given Representation on Medical Board.

Madison, Wis., April 18.—The contest over the passage of the Osteopathy bill has been settled by a compromise. At a meeting of the representatives of the osteopaths and the regular physicians and committee on Public Health yesterday afternoon an agreement was reached, and today a bill will be reported in the assembly that will pass without friction.

The agreement reached was that the medical bill shall be amended so that one of the members of the board shall be an osteopath and shall be appointed within thirty days of the passage of the bill. All osteopaths who are regular graduates of reputable colleges and who have practiced in the state prior to March 1, 1901, shall be granted a license. All others shall take an examination before the board in all branches of medicine except materia medica, therapeutics and surgery. All persons licensed must be graduates of reputable colleges of osteopathy. After 1903 only osteopathy colleges that conform with the same studies now taught in medical colleges shall be recognized by the board. Four year courses shall be taught.

## MORE DISTRICTS ARE FIXED.

Joint Apportionment Committee to Take Up Disputed Territory.

Madison, Wis., April 18.—The Joint Committee on Apportionment held another session last evening and when it adjourned a total of twenty-four of the thirty-three senatorial districts had been determined upon. The committee has now reached a point in its work where the disputed territory is all that is now left to be disposed of, and it may take several more sessions before the bill will be reported to the senate. The districts in the southeast section of the state where the greatest difficulty exists were touched among the other counties still to be disposed of being Walworth, Waukesha, Rock, Jefferson, Green, Washington, Ozaukee, LaFayette and Dodge.

## LARGE LIEN ON THE RECORD-HERALD

Incumbrance of \$3,600,000 Placed Upon a Chicago Newspaper Property—Document Filed

Chicago, April 18.—The largest mortgage ever placed on a newspaper was filed with the county recorder yesterday. The document was signed by H. H. Kohlhaas and mortgaged the property of the Chicago Herald company for \$3,600,000. The mortgage is made in favor of the Illinois Trust and Savings Bank, in trust for the holders of \$3,600,000 worth of bonds recently issued by the Chicago Herald company.

The property mortgaged by the instrument filed yesterday includes the leasehold and building of the Chicago Herald company, Nos 154 to 158 Washington street, and all the machinery, engines, and fixtures of the building, the rents, issues and profits, and the newspaper known as the Record-Herald, including business, good-will, subscription lists, and the Associated Press and City Press Association franchises.

Wm. B. Campbell and wife of 206 South Academy street are making preparations to spend a year in California. Mr. Campbell was recently operated on for cataract of the eye by Dr. Thorne and has had so much of his sight restored that he is anxious to make the extended western sight seeing trip. Mr. Campbell was almost totally blind for a considerable length of time.

## DIVORCE SCANDAL ROUSES RACINE; PROMINENT PEOPLE IN SOCIETY

Grave Allegations Against One of the Wealthiest Citizens—Hearing Will Be in Secret—Some of the Charges in the Complaint.

Racine, Wis., April 18.—The divorce suit brought by George Crane against his wife alleging undue intimacy with Frank K. Bull, one of the wealthiest men of the city, came up for hearing yesterday afternoon before Judge Fish but was continued behind closed doors, but nevertheless enough scandal has cropped out to keep the gossip busy. It is said that an effort to effect a settlement will be made, but that such a result will be attained is thought unlikely.

All the persons involved in the suit are prominent in Racine society. All were born and raised in Racine, and until George Crane began the suit against his wife, Mabel Barker Crane, and accused Frank K. Bull of undue intimacy with her, no breath of scandal ever touched upon the persons involved.

The charges made by George Crane have been the talk of Racine since the suit was filed on Feb. 23 last. The prediction was made that the case would never come to trial. But George Crane now says that he is ready to prove the charges that he makes against his wife. He avers also that a suit for damages will be started soon in his name with Frank K. Bull as defendant.

Bull is the president of the Case Threshing Machine company, and one of the wealthiest men in the state of Wisconsin. He is married and has two lovely children. His daughter is attending a female seminary, and his son is at home. The bulls occupy the finest mansion in Racine. It is located on Main street.

George Crane is the leading bicycle and sporting-goods dealer of Racine. Mrs. Crane is now residing with her parents, Mr. and Mrs. William G. Barker, who have a charming home on College avenue. She makes a sweeping denial of the charges filed by her husband.

## CHINESE HAVE GROWN HOSTILE; TROOPS MASSING ON THE FRONTIER

Great Trouble is Feared—Chinese Court May Be Playing a Double Game—Imperial Palace Occupied by Prince Waldersee Burns Down.

Pekin, April 18.—Trustworthy Chinese report that troops in large numbers are massing in the province of Shansi, near the frontier border of the province of Chihli. Well informed natives prophesy further trouble.

It is impossible to ascertain whether the court is playing a double game, or its authority is insufficient to prevent the Chinese generals acting in a manner likely to provoke hostilities. The fact that for many months there has been nothing in the shape of a de facto government favors the latter hypothesis.

Probably a great deal will depend upon the Franco-German expedition inflicting a severe defeat upon the Chinese who have transgressed the amendment by entering upon the sphere of the allies. If these offenders are thoroughly punished it is likely to produce a good effect.

Berlin, April 18.—A dispatch from Peking gives the details of the conflagration which destroyed the imperial palace in which Field Marshall Waldersee, commanding the allied forces made his headquarters. The fire started in the residence of Major Laurensen and spread to the Asbestos house which Waldersee brought from Germany. The house was rapidly consumed Waldersee escaping through a window with the utmost difficulty. Maj. Gen. Schwartzkopf, Waldersee's chief of staff, has apparently lost his life, entering the buildings to help rescue others whom he supposed to be there. It is not known whether there are other casualties. The fire is believed to be the work of incendiaries.

## SHOPS ARE NO PLACE FOR WOMEN

Metal Polishing is Not Fit Work for the Weaker Sex—Union Labor Men Object.

Milwaukee, Wis., April 18.—The members of the Metal Polishers convention today discussed the question of the employment of women, taking their cue from President Lynch, who made certain recommendations. C. E. Myers, a Chicago delegate said: "Women have no business to do brass polishing. It is the most unhealthful business they could get into, and we are going to make strong efforts to get them something better to do. In the Wolf Plumbing Co.'s works at Chicago we set about to get the women married to good men, and in the past year and a half we have made seven matches. They are with us and cannot be ignored, and so we are not trying to freeze them out of work, but simply trying to get them something better to do."

They ought to get the same wages as the men are paid. It is unlikely that the convention will do anything in the matter, except, perhaps, to adopt resolutions recommending to the locals that they try to get the same wages as are paid the men, and bring about the passage of the legislation referred to.

Nicholas Duttie, fourth vice president, and E. Marlette, second vice president, expressed themselves in hearty sympathy with the recommendations of the president. "While we would all prefer to see the women out of the trade, because of many objectionable features which you could not mention," said Mr. Duttie, "wherever the women are at work we want them to get the pay the men do for the same amount and class of work. They produce just as the men and there is no reason why they shouldn't receive equal pay."

They ought to get the same wages as the men are paid. It is unlikely that the convention will do anything in the matter, except, perhaps, to adopt resolutions recommending to the locals that they try to get the same wages as are paid the men, and bring about the passage of the legislation referred to.

## ONE KILLED AND OTHERS INJURED

Cleveland, O., April 18.—In a head end collision this morning of a freight and construction train on the Wheeling & Lake Erie road within the city limits, Brakeman Wm. Thies was instantly killed; Engineer Harry Vinzenberech, fatally injured; Fireman J. O. Poman badly crushed and Silverter Bruggie, a workman, seriously hurt.

## BOERS BLOW UP "LONG TOM" GUN

London, April 18.—Reports from Pretoria state that Colonel Kitchener advancing from Lydenburg found the Boers had blown up "Long Tom," the gun which figured in the siege of Ladysmith, as they were unable to move it. They captured thirteen prisoners. Another column under Col. Douglas occupied Dullstroom after an engagement in which six Boers were killed. Plumer's column is occupying Bathfont, taking thirteen prisoners.

## TWO BIG FIRES IN NEW YORK STATE

Mayville, N. Y., April 18.—The business portion of that city was swept by flames last night, county jail, sheriff's residence, Episcopal church, opera house, Sentinel plant and several business blocks were destroyed. The loss is over one hundred thousand dollars. The origin of the fire is unknown.

Rochester, N. Y., April 18.—Three hundred thousand dollars is the estimated loss by the destruction of the New York Central car works in East Rochester which caught fire at midnight. Fifty cars were also burned.

Beloit Defeats Michigan. Beloit, Wis., April 18.—Beloit college opened the ball this season by swiping the big Michigan varsity team all over the earth. The score was 13 to 4 in Beloit's favor and the legions made eight runs in the eighth inning. It was a good cold weather game until that inning when it became very chilly for Michigan.

## LEGISLATIVE BALL TONIGHT.

Gov. LaFollette and State Officers Will Be en Attendant.

Madison, Wis., April 18.—The legislative ball will be held at the university gymnasium this evening and the sale of tickets indicates that it is going to be a great success. The music will be furnished by Prof. George Bach's band of Milwaukee, consisting of thirty pieces and Professor Vizay of that city will have charge of the dancing. The large hall will be prettily decorated with flags, bunting and palms. A supper will be served from 10:30 until two o'clock by Jacob Van Etta. Assemblyman Zinn and Mrs. Kreutzer will lead the grand march at nine o'clock. Governor and Mrs. LaFollette and all of the state officers and their wives will be in attendance.

San Francisco, April 18.—Advices brought by the Steamer Doric say that the bubonic plague is increasing alarmingly at Hong Kong. The worst epidemic is feared.

## PROPOSES NEW FAITH

Dr. Jenkin Lloyd Jones Declares That Protestantism Is Dead—Asks Help from Women.

Chicago, April 18.—A new religion, founded by Dr. Jenkin Lloyd Jones of All Souls church and all the women's clubs, will soon be established in this city, says Dr. Jones. Protestantism, he asserts, is quite dead, and the new religion will be of a catholic nature.

Dr. Jones talked of this religion to be at a meeting of the united study class of the Chicago's Woman's club in the Fine Arts building yesterday.

"I am gradually taking you women away from your Protestant churches into a broader, more catholic religion, and soon I will have you all there."

"When I get you interested as I am certain to do, you will join hands with me, and we will work together in blessed holiness. You will in turn be saved by this religion. You need it, and you will be glad to work with the rag end and tag end of civilization. You will call them 'brother' and 'sister.'"

Dr. Jones believes Protestantism has passed away from an attack of class distinction. It has brought about, he asserted, the meanest kind of aristocracy—the kind that divides all people into "those we like and those we don't like."

This ideal religion of Dr. Jones and the club women will, according to the founder, have no committees to run it. "There will not be a wheel in it," he maintained, but he didn't say whether there would be any annual elections or not.

Rev. Father Harden of Edgerton returned to his home this morning.

## GAMMA KAPPA SOCIETY

Closing Meeting and Banquet Held Last Evening at the Home of Miss Maud Nicholson.

The closing meeting and banquet of the Gamma Kappa society was held last evening at the home of Miss Maud Nicholson. The young ladies and their gentlemen friends enjoyed a very pleasant meeting. The tables were decorated with roses and smilax and made a pretty picture with all the smiling faces around them.

The toast of welcome was given by Theresa Baker and the response by Verne Murdock. This was followed by a musical selection by Harriet Hudson which was very nicely rendered. Lloyd Winston responded to the toast, The Girls, and Laura Dudley handled the toast, The Boys.

A very pretty poem concerning the society was read by Leah Rowe. The balance of the evening was spent in playing games and listening to musical selections.

## BASE BALL SEASON OPENED TODAY

National League Starts the Game with Eight Clubs—Fans More Interested Than Usual.

King Baseball dethroned for half a weary year, resumes his throne today, and in four cities of this fan-haunted land the crack of the bat will be heard, coupled with the shriek of the coacher, the raucous bellow of the umpire, the wrangling of of the captains, and the roaring of the bleachers. The National League championship will be formally opened and more excitement is expected than at any time since the corresponding period of last year.

All along the circuit a cry of protest has gone up against the new playing rules with hardly a note in their behalf. The crowds will be influenced by this sort of roasting, and are not likely to be any too tolerant or good natured. They will rail at every foul strike, howl murder when anybody is hit by a pitched ball, and in general make the stands melodious and the game a kaleidoscopic uproar. Nor is the playing likely to exactly overjoy them. The teams are in a very poor condition, hampered by a late spring, wet weather, and the shortness of the training season. The men are all stiff, bruised and half trained. They will hurt themselves if they try to play vigorous ball, and hence are not likely to break their backs taking any extra exertion.

Huge crowds are anticipated, including not only those who would turn out to a baseball opening anyway, but the thousands who are curious to see how the depleted teams, stripped of their finest players will make out, with the stars gone and the ambitious youngsters given a fair chance to show their skill. It does not seem likely at the present moment that the fans will be any too well pleased.

The games to be played today are as follows: Chicago at St. Louis, Pittsburgh at Cincinnati, Boston at New York, Brooklyn at Philadelphia.

## THERE WILL BE NO STEEL STRIKE

Trusts Will Make Concessions and So Will the Men.

## LABOR IN CONFERENCE

A Vote on the Contested Matter is Expected Late This Afternoon.

## THE CRISIS AT M'KEESPORT

Pittsburg, Pa., April 18.—"There'll be no strike; the trust will make concessions and so will the men." This statement coming from an officer of the Amalgamated Association this morning is authoritative and describes the situation in a nutshell.

The workmen have no desire to precipitate a struggle and to avoid a clash have decided to make concessions which will be met by the manufacturers.

The final vote won't be taken until late this afternoon or possibly this evening, but the probability of a strike seems, at this writing, very remote.

The conference went into executive session at ten o'clock this morning. Previously a Scripps-McRae reporter made a canvass of the members of the advisory board. Four declared that they were not anxious for a strike, but that, if asked for, a strike would be declared. President Shaffer said he was yet in favor of a strike if the interest of the men were jeopardized.

## SPRING CITY WANTS MANUAL TRAINING

Committee for the Waukesha Board of Education Inspecting Local High School Today.

A committee from the Waukesha board of education visited the High school today with the special object of inspecting the manual training and domestic science departments. A strong effort is being made to add these departments to the Waukesha High school and the movement has aroused spirited opposition headed by the mayor of Waukesha, who has publicly expressed his disapproval of gymnasiums, cooking lessons, basket ball and several other features of High school work which he designates as fads. In his opinion "a boy should not be educated a prize fighter, a girl a circus rider or a hotel cook."

In spite of the opposition the board of education is giving the matter much careful consideration and investigation. The committee which visited this city today consisted of F. A. Clasen, a prominent attorney; W. H. Sleep, president of the National Exchange Bank, H. M. Youmans, editor of the Waukesha Freeman, and H. L. Terry, superintendent of the schools. The committee was very much pleased and favorably impressed with the equipment of the High school and praised the work very highly. Mr. Clasen, who is chairman of the committee, visited the Milwaukee schools yesterday.

## Preferred Death to Disgrace.

Zanesville, O., April 18.—J. K. Lamsley of Lowell drowned himself in the Muskingum river. He was short in his accounts as township treasurer, and his bondsmen last evening notified him that they would no longer be responsible. The body was recovered.

## TREASURY HOLDS BIG GOLD STORE

Aggregate Exceeds \$500,000,000, and is the Largest in the History of the Nation.

New York, April 18.—The government's aggregate gold holdings for the first time in history have passed the half billion dollar mark. The exact total given in the United States treasury report of yesterday was \$500,278,506, of which \$252,078,959 was held against certificates in the hands of the outside public and \$150,000,000, as a reserve against outstanding United States notes, the balance having free assets.

This is the largest amount of gold now held by any single financial institution in the world and it is the largest ever held by any institution with one exception—the Imperial bank of Russia, which in February, 18198, raised its total holdings to \$590,300,000. At present, however, the Russian bank holds only \$371,500,090.

The bank of France now holds

\$472,271,000, its high record being \$479,244,000 on the 4th of this month. Most of this gold is held against outstanding notes. The Bank of England holds \$169,100,100 and the high record of its history was \$245,500,000, in February, 1896. Present gold holdings of the Imperial bank of Germany are \$130,000,000, and its total of gold and silver combined never ran above \$222,500,000.

The United States Treasury's gross gold holdings have increased \$76,433,000 within the last twelve months. In April of 1899 they have barely exceeded \$278,000,000 as against the \$500,000,000 now held. On Feb. 10, 1896, they reached the low level of \$94,239,542.

This immense amount of money in the treasury is calling Secretary Gage to buy government bonds as fast as he can get them.

## HIGH COMPLIMENT TO H. C. BUELL

CONSIDERED BEST MAN FOR  
Supt. MAYNE'S PLACE.

The Whitewater Man is offered the Appointment Without Any Solicitation on His Part—Selected on the Merits of His Good Work Accomplished in the Schools.

Supt. H. C. Buell of Whitewater will undoubtedly be the next superintendent of the public schools of this city and under the necessity of losing Supt. Mayne, the board of education could have made no choice which would so well please the citizens of Janesville.

The decision to offer the position to Supt. Buell was made at a meeting of the new board which was organized last evening. It is a high compliment to Mr. Buell because he received the appointment without solicitation and on the merit of the work which he has done in both this city and Whitewater.

Mr. Buell made no application for the position, but his methods are known to be so thoroughly in harmony with those of Mr. Mayne that he is so familiar with the Janesville schools that it was the judgment of the board as it is the judgment of a great many other people, that Mr. Buell might step into the position with the least friction.

For five years before he went to Whitewater he served under Mr. Mayne as the vice principal of the high school and during that time he impressed his worth as a teacher of unusual ability and a man of high character upon the entire community. He also attracted attention throughout the state by his educational work in teachers' institutes and his great success at Whitewater has only fulfilled the expectations of his friends. Those who know anything of his work in Whitewater feel sure that every effort will be made to keep him there. His salary was raised last year in recognition of his merit and he was promised an additional increase this year. An increase of \$200 was voted him within the last few days with the evident intention of inducing him not to consider the vacancy here.

Notwithstanding the efforts which Whitewater people have made and will make it is tacitly understood that Mr. Buell will accept the city's offer. Conversation was held with him over the telephone last evening and he was asked if he would accept the position if it were offered to him. Mr. and Mrs. Buell have a large circle of friends here and they will be warmly welcomed back to Janesville.

The organization of the new board was effected by the unanimous re-election of W. S. Jeffris as president and S. C. Burnham as clerk. No other important business, except the election of the superintendent, was transacted.

Mr. Mayne's time does not expire until August but under the circumstances it was thought advisable to elect his successor as early as possible.

## STORE IS REMODELED

Janesville Music Company Have Been Making Improvements in Their Music House.

J. H. Hagen and man during the past few days have been busily engaged redecorating the interior of the store opposite the postoffice occupied by the Janesville Music Company. The walls have been beautified with new paper, and the liberal use of paint has made the place look like new. This month the Janesville Music Company are giving the public the benefit of a liberal discount on all pianos purchased of them. It is also well for intending purchasers to take into consideration the fact that this reliable firm are here to stay, and not here today and away tomorrow. In other words, they are here to be found in case the purchaser has any complaint to make. Their stock comprises ten of the leading makes known to the trade and include the Sohmer, Kroeger, Haines, Steger, Schumann, Boot Bros., and others. On account of ample capital and small expenses, the Janesville Music Company are able to sell lower than it is possible for others. The Janesville Music Company are also the direct representatives of the manufacturers, which gives them another advantage in quoting low prices. This well known firm is a credit to Janesville, and the amount of business transacted by them during the past year involves a fortune.

My heart and hand another claimed. His plea had come too late. It's over thus with people without pluck and vim.

Take Rocky Mountain Tea, don't get left again. Smith's pharmacy; kodak agent, next to postoffice.

How Success is Turned to Failure. An editorial writer recently said: "There is plenty of room at the top, because the ordinary man, who has climbed up half way or one quarter way, becomes so well pleased with himself that he sits down to admire his marvelous climbing and never gets any higher."

This also explains why it is that many advertising campaigns which start out with a great flourish of trumpets and half page displays don't bring fortunes to the advertisers. They are abandoned too soon. The advertisers stop to pat themselves on the back and otherwise throw bouquets at themselves for having the remarkable ability to arouse such an amount of public interest, and then they conclude that they can do business indefinitely on the results of their unfinished campaigns. This is a costly error. When their advertising ceases both they and their goods are soon forgotten, and the wiser men take their places in the public mind. The public, it may be remarked, never goes out of its way to remember former advertisers. It isn't compelled to do so. There are always present advertisers in sufficient numbers to supply its wants, and thus the need of remembering is obviated.

There are dozens of advertisers who have scored an initial success and then suddenly stopped advertising or attempted to cut down advertising expenses. It's the advertiser who isn't satisfied with his first success that is the eventual winner.—Profitable Advertising.

## MANY KIND WORDS

For One of the Many High Grades of Pianos That We Offer at the Great Discount Sale.

Madison, Wis., April 6, 1901. Groves-Barnes Music Co., Madison, Wis.

Dear Sirs:—Please allow me to express my great satisfaction at the excellent service given us by the Blasius pianos. We have now been using them in considerable numbers for five or six years, and in a manner to test them severely. The length of time has been sufficient to develop their weak points, if they had had any, but we have discovered none. Words might be multiplied, but it is sufficient to say that in touch, tone and endurance, they have proven not only satisfactory, but pre-eminently so. I should hesitate to speak thus unqualifiedly, if I did not feel that my acquaintance with the instruments had been sufficient to enable me to speak from positive knowledge.

Yours very truly,

## JANES-VILLIANS AT INDOOR CIRCUS

Feature of the Exposition to Be Given by the University Students at Madison.

Students of the University of Wisconsin are making great preparations for the indoor circus to be given by the different fraternities. Robert Knoff of this city, will be the Athlete's "hawk."

In advertising the approaching event the Daily Cardinal says that in the vast annex tent will be exhibited real scenes from the people and tribes of all nations. One of the most important is the unrivaled bunch of Barabooches, hired for a time from the Ringling Bros., whom they have made famous.

The Omahahas and the Waterhuhn occupy a prominent position here. Another important group is the Green Baylies, beautiful laughing spirits who fill the air with the music of their laughter.

The Brodheads, wild Indians of the Diggertype, are exhibited in all their rarity.

But undoubtedly the gem of the collection is the large aggregation of Janes-villians who are exhibited by special permission of the Governor, the Supreme Court and the Board of Control. They are confined in a vast cage in the center of the magnificent annex tent and three times a day, three times, remember, are fed before the assembled multitude.

A wilder scene than all these make is not to be found. Here, in the midst of the highest civilization of this jeune de siecle decade, are brought in wild tribes, barbarians, unbarbered, and savage, who, before the very eyes of the spectators perform their daily tasks. Bring the children to see the living geography lesson.

## SCHOOLS PREPARE FOR ARBOR DAY

Annual Circular Issued by State Supt. Harvey Contains Interesting Matter on the Subject.

The teachers and children of the public schools are preparing for Arbor day, the annual holiday devoted to the practical study of trees and flowers and birds, and out of door beauties. The state superintendent of schools, L. D. Harvey has sent all the counties in the state, copies of the Wisconsin Arbor and Bird Day Annual.

The annual is a most artistic publication. The front cover is decorated with a landscape in green, black and red, presenting a reposeful picture of country life, a peaceful river winding at the foot of the hill with a few sprigs of flowers and bushes and a dark background of distant trees, brightened by the red of a dying sun, shimmering on the water of the river. The reflection of the trees in the river are artistically cut by the waves reflecting the sunset.

A bird is just alighting in the foreground, while three of its mates are perched happily on the border above. On the back page is a most artistic blot showing a silhouette of a clump of trees against a clear sky, with a red sun shining through. It is nothing but a tail piece but it is full of artistic sentiment. The interior of the pamphlet is profusely illustrated. The drawings were made by Miss Jennie Pitman, of Madison.

It is a book of sixty pages, containing selections from authors and poets, both great and small, on subjects pertaining to nature. Governor Robert M. La Follette's proclamation is published, setting aside Friday, May 3, as a day for planting of trees, the adornment of school and public grounds, and suitable exercises, having for their object the advancement of the study of arboriculture, the promotion of the spirit of protection of birds and trees, and the cultivation of an appreciative sentiment concerning them.

State Superintendent Harvey issued instructions to teachers, recommending methods of teaching Arbor day lessons and those are given selections from Ike Marvel, Helen Jackson, Ralph Connor, James Whitcomb Riley, Longfellow, James Lane Allen, Rose C. Swart, of Oshkosh, Oliver Herford, Jean Ingelow, Neal Brown, of Wausau, and scores of others from Shakespeare to Anon. A programme includes the singing of "America," the reading of the governor's proclamation, recitations and songs, and addresses by parents or teachers, ending with a decoration of school grounds.

is the title of a new booklet descriptive of these states, a copy of which, with a new map of the Columbia River region, will be mailed free on receipt of six cents in postage by W. B. Kniskern, 22 Fifth ave., Chicago, Ill.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1653 Milwaukee avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend to my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time which seemed to relieve her so quickly that I bought some myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by People's Drug Co., and King's pharmacy.

Very Low One-Way Rates via C. M. & St. P. R'y.

"Still Waters Run Deep."

In your body lies the vital fluid, the blood. It makes no noise, but it gives you life.

If it is strong, pure, full in volume and vigorous, you reap the benefit. If not, the still waters of life, tainted and poisoned, are well-springs of disease. Hood's Sarsaparilla purifies the water of life at its source. It makes the blood healthful and keeps it so, as nothing else can.

Family Medicine—"We value Hood's Sarsaparilla very highly. When we feel the need of a medicine we take it and it keeps our systems in good order." N. J. Leighty, Booth, Kansas.

Eczema—"Hood's Sarsaparilla and Hood's Olive Ointment cured eczema very quickly. I would not be without them."

Mrs. Rayner, 126 Kellogg Street, Fall River, Mass.

Tired Feeling—"We take Hood's Sarsaparilla for our spring medicine and whenever we have that tired feeling and we find it is good." Mrs. John Work, Cochran, Pa.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver bile; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

## HARDMAN PANO.

FINE TESTIMONY. TO A THING OF MERIT

Mr. H. F. Nott, agent for the Hardman Piano, has received the following testimonial from one competent to know what a good piano is. It is with much satisfaction that Mr. Nott gives the public this testimonial:

Dear Sir:—In 1894 my parents purchased a Concert Square Hardman Piano. This instrument is still in my possession, having been in constant use for own practice and in teaching during the past 20 years. It has never required repairs and although in the early years we kept it frequently tuned it is now five years since it has been tuned and is in good condition, with clear, soft musical tones and good touch. I have known several Hardmans and have yet to see one which failed in quality or durability. Witnessing the Hardman piano success, I remain its friend.

## EVERY CITIZEN AN ARTIST.

It is well for public thought to turn aside occasionally from the every-day cares and business of life, and devote an evening as did the Twilight Club, to the discussion of lighter topics, yet none the less important.

What can be done to beautify the city and make it more attractive is a question, that has never secured very much attention and as a result, aside from what nature has accomplished, Janesville has but little to show in the way of artistic beauty.

People who have given the matter any thought, have frequently said, "Why didn't the founders of the place lay it out with some regard to appearance, and with some other object in view, than simply a place to live and do business."

With a beautiful river winding its way through the city, it might have been made a second Hartford, where the Connecticut river for two miles is lined on either side with stately elms, and a boulevard extending up and down the stream, has long been recognized as one of the finest drives in the nutmeg state. The river does not interfere with business, and the place is noted for its natural and artistic beauty.

Of course, Hartford, like all of the old eastern cities, was planned before the days of railroads and when people had time to think and plan for the future.

Janesville, handicapped with its countrified name, its river obstructions and unsightly surroundings, possesses like all western cities, some things not to be found in the east. The spirit of enterprise that made the west, has never been lacking in the Bower City, and it was never more in evidence than today.

While it is not possible to undo what has been done, it is possible by a little intelligent work, and at small expense, to so improve the city, that the place will hardly be recognized in five years. The movement inaugurated by Professor Mayne—and while it is to be regretted he will not be able to superintend—is very practical and in the right direction. The school building and grounds should be the most attractive resorts in the city and will be when properly managed.

The suggestion of Mr. Manning concerning the river below Court St. bridge, should also be followed out as well as his ideas concerning home decorations.

The smoky city of Pittsburg has miles of residence streets that are a continuous arbor of vines and flowery plants and every house occupant is his own artist.

There are more home owners in Janesville than in any city of similar size in the state. Every home can be made attractive with but little expense, as was clearly demonstrated by the pictures thrown on the canvas, at the Twilight Club meeting.

With good streets and sewers, and a little well directed energy on the part of property owners every citizen will become an artist and the appearance of the city may be transformed in a twelve month.

## IS KIPLEY CRAZY?

Chief Kiple, the head of the Chicago police department, is treading on dangerous ground. The Tribune tells the story as follows:

"There are entirely too many 'plain clothes' men on the force," Chief Kiple said yesterday. "That is one reason the citizen when he is looking for a police man fails to find one."

The chief issued a general order in black faced type that only eight plain clothes men are to be permitted at division headquarters, six at district headquarters, and four at precinct headquarters.

"In many instances I find that there is a comparatively small number of men traveling beats in uniform," he states. "My aim is to have as many uniformed men as possible on the streets."

Chief Kiple cannot safely favor having "as many uniformed men on the streets as possible," for the policy of the famous police department of Janesville, Wis., is the exact opposite. Everyone knows that the Janesville police department is fully the equal of that other village of 1,500 to 2,000 inhabitants and when Chief Kiple dares to dispute the theory upon which the Janesville department runs, he invites the wrath of the Janesville magnates—a visitation that would certainly prove fatal.

## SENSIBLE BELOIT.

Beloit has finally come to her senses and will open the streets to the new electric road. With the enterprise, for which the city is noted, it hardly seemed possible that she would put up the bars, and block the wheels of progress.

While Janesville would have welcomed the new road, and would be pleased to have the head quarters

located in the city, it was very evident that Beloit was the natural location, and the Bower City will not complain.

The enterprise is good for both places and when in operation, Beloit will wonder why she was opposed to it.

The county is being honey combed with electric lines, and everyone of them puts the farmers in closer touch with the cities. Within five years many of these roads will be owned and controlled by the steam lines and used as feeders. When this is done the farmers will have a home market for produce at his door.

No city can afford to stand in the way of progress, and Beloit has acted wisely in deciding to grant a franchise. The city will continue to grow, as it has in the past and the road will be found a very helpful factor.

Representative Babcock expressed a self evident truth when he said that the Stevens primary election bill, if it ever became a law, would enable him to stay in Washington and dictate his nomination for an indefinite period, and yet we are told that the law contemplates reform and the abolishing of the machine. This is a progressive age and all kinds of machinery is being improved by new inventions. The friends of the primary law appear to be well equipped with inventive genius.

The members of the Twilight Club paid Prof. Mayne a very flattering compliment by a resolution adopted at the last meeting. It is hoped that he may be persuaded to reconsider his proposition. If he could be given the authority to which any superintendent is entitled, his sphere of usefulness and efficiency, would be wonderfully increased.

Mrs. Carrie Nation was fined \$500 for obstructing the street at Kansas City, the fine being suspended on condition that the Hon. Carrie "keep out of the city." Thus does greatness evaporate. The remedy applied to Aunt Carrie's case is that usually employed by police courts in dealing with tramps.

The Milwaukee Sentinel is fortunate in having secured the services of Dan B. Starkey. He is not only in sympathy with the policy of the Sentinel, but is thoroughly well informed, up-to-date newspaper man. The Sentinel staff is strong and vigorous throughout and Mr. Starkey is a good addition.

Congressman Babcock is opposed to the Stevens primary election law, but says the substitute passed by the senate is all right. The Stevens bill, Mr. Babcock says, gives a machine candidate undue advantage over the candidates who has no machine backing.

Mayor Harrison, of Chicago, has been in New York for some days past getting pointers on "municipal reform." The New York brand of reform, it is thought, will be found to suit the requirements of Mayor Harrison and his followers "to a t."

The City of Beloit should also take notice to the fact that the electric line is willing to wipe Beloit off the map in order to reach the City of Janesville.

The Standard Oil Company now proposes to devote its attention to developing its copper mines—the supposition being, of course, that the company has secured all the gold, silver, and lead pipe in sight.

A man living at Quincy, Ill., was fatally burned when his celluloid collar caught fire. Moral—don't try to beat the laundryman, or you'll get it in the neck.

And Chief Kiple might get some additional pointers by visiting Janesville.

Beloit appears to be the anti-line city.

## NO USE WASTING MORE GOOD TIME

### CLOUGH SENDS HIS ULTIMATUM TO THE BELOIT FOLKS.

The Line City Thoroughly Aroused Over the Fear That Janesville May Get the Electric Road and Power House—An Acceptable Franchise May Now Be Accorded.

H. H. Clough sent Beloit an ultimatum yesterday. He is not disposed to waste any more time with the selfish "hog all" business men of that little town. Mr. Clough wired in answer to a telegram demanding his presence in Beloit:

"No use wasting time unless satisfactory route is named without urban, and franchise as outlined for Janesville."

City Thoroughly Aroused.

That was a settler and the city is thoroughly aroused over the fear that Janesville may after all get the electric road headquarters and the power house. The Beloit News says: "This telegram verifies the announcement made by this paper on Monday evening that the Ohio capitalists had practically determined to pass by Beloit and locate their power house at Janesville. Instead of trekking again to Beloit to secure that for which he has been seeking many months, Mr. Clough has wired his ultimatum and this city must make the best of it."

"The situation is not a pleasant one to confront, but when it became known on the streets what stand Mr. Clough and his associates had taken there was little surprise and scarcely any expressions of combativeness."

Should Have His Franchise.

"Clough has spent many months here," said one business man. "He has been magnanimous in all his dealings and offered this city about everything that he had at his command. The ten aldermen who went to Ohio and Indiana were agreed that he should have a franchise and stood ready to vote one, but the proposition was hung up, time after time, until now Janesville practically offers \$15,000 for what Beloit would not grasp. I hope Mr. Clough will not in turn, lay down terms that are too severe, but if only one horn of a dilemma is presented to us we must act. Delay—and of the most unnecessary and irritating character—has already lost to Beloit splendid advantages."

Farmers Taking a Hand.

"Farmers in every direction from Beloit are ridiculing the city for its refusal to grant a franchise. They place their own construction on the reasons for the opposition. Not only do they say they will not trade here, but they are refusing to pay for the stock subscribed to insure the success of the interstate fair. A refusal to grant an interurban franchise means the death knell of the project. Will the common council take heed and do something sensible?"

## ENJOYED PLEASANT MUSICAL TREAT

Delightful Evening Spent by a Number of Ladies at the Home of Mrs. M. G. Jeffris.

A company of ladies enjoyed a delightful musicale at the home of Mrs. M. G. Jeffris last evening, the occasion being the first of a series of recitals given under the direction of Miss Jessie Beach illustrative of the Kelso school of musical and dramatic art.

The guests were received at the door by little Miss Helen Jeffris and after being warmly welcomed by Mrs. Jeffris and Miss Beach, were seated in the pleasant parlors where for a little more than an hour they enjoyed a very pleasing program of instrumental and vocal music.

The recital was given by Miss Anna Church of La Porte, Ind., assisted by Mrs. W. C. Rhodes of Cleveland, O. Miss Church is a talented pianist and charmed her audience both with her personality and her playing. Her program was a difficult and widely varied one and included selections from Grieg, Sinding, Chopin, Schumann, Heymann, Mendelssohn, Schubert, Liszt and Wagner-Liszt. She plays expressively and has the power of making her music appeal to her hearers. She was insistently encouraged but refused to respond.

Mrs. Rhodes sang two beautiful numbers, "Serenade" from "The Fortune Teller" and "Spring Song" by Lynes. She was given an encore each time, but only responded after her second selection, when she sang "Day Dream" by Streletski. Although Mrs. Rhodes now lives in Cleveland, Janesville claims her and there is no one among all the sweet songsters who is ever heard with more pleasure by a Janesville audience. Miss Jessie Beach played her accompaniments.

After the program those present enjoyed the pleasure of meeting Miss Church personally and the evening came to a close with a few minutes of informal sociability.

## SAMUEL M. SMITH CHANGES HIS JOB

Resigns Secretaryship of Tax Commission and Goes to Chicago for the K. of P. Insurance Co.

Samuel B. Smith, formerly of this city, now secretary of the Wisconsin State Tax Commission at Madison, has just received a well deserved recognition of his ability.

He has resigned his position as secretary of the tax commission to accept a position as secretary of the Uniformed Rank Knights of Pythias Insurance company, with headquarters in Chicago.

Mr. Smith leaves Madison on Saturday to take charge of his new position which is one of great responsibility and one that he is perfectly able to fill with honor to himself and the members of the order. The Uniformed Rank Insurance company is one of the largest and most prosperous fraternal insurance organizations in the United States and the position taken by Mr. Smith carries with it a handsome salary.

Mr. Smith is a young man, whose business qualifications and social relations are of the highest order. He is a graduate of Beloit college and also a lawyer of recognized ability.

After graduating from Beloit college he was employed in the Merchants and Mechanics' savings bank of this city, where he held the position of teller and assistant cashier. He gave up his position in the bank to take up the study of law. After his admission to the bar he took up the practice of his chosen profession with Hon. J. M. Whitehead and Alexander E. Matheson, under the firm name of Whitehead, Matheson & Smith.

He remained a member of the firm until he accepted the position of secretary of the state tax commission, which position he has filled to the satisfaction of all up to the present time.

He has so far made a record for himself that any young man might well feel proud of. The new position which he has accepted was entirely unsolicited on his part.

Hon. Ogden H. Fethers, supreme chancellor of the Knights of Pythias, has been on the lookout for a man for this position and unhesitatingly recommended Mr. Smith for the office. His recommendation was at once accepted by the board of directors and the position offered. Mr. Smith and accepted by him.

His many friends in this city will unite in extending congratulations on his well deserved good fortune.

## HARD AT WORK ON CANNING FACTORY

Excavations Are Complete and the Contracts for Construction Will Now Soon Be Let.

The excavation for the canning factory foundation was completed yesterday. Mr. Hohenadel and Mr. Marsh are here to let the contracts for the construction of the buildings. Mr. Evans of the firm of Evans & Morris, architects, was expected today from Milwaukee with the plans for the buildings. They will be here at the company's office for the inspection of contractors who will be asked to bid on the construction of the buildings.

Mr. A. J. Russell of Chicago is also here and will take up the work of securing acreage, where Mr. Susmeihl left off.

They have not yet secured nearly enough acreage to run the plant to its full capacity and will make every effort to secure from eight hundred to a thousand acres more of produce.

An important branch of the business will be the manufacture of pickles and sauer kraut. In these two things the company expects to do a large business.

Mr. Hohenadel will be in the city the greater portion of the time from now until the factory is completed. Most of the work will be done under his immediate supervision.

A PHYSICIAN IS MURDERED

Is Shot While Riding in His Buggy.

THE CRIME OF ASSASSIN.

Hal S. Scruggs Was Returning Home After Visit to a Patient in Memphis—Bloodhounds on the Trail of the Murderers.

Memphis, Tenn., April 18.—Dr. Hal S. Scruggs, one of the leading physicians of this country, was assassinated about 10 o'clock last night on Poplar boulevard, one of the most prominent thoroughfares leading from Memphis, while returning from a professional call. The physician was riding in his buggy when two assassins, who had lain in ambush, crept up behind and shot him in the back of the head. One pistol ball penetrated his brain. The tragedy is shrouded in mystery, although officers have been working on the case all day. They have a slight clue, and if the guilty parties are apprehended, it is believed that summary punishment will be inflicted. After the assassination the body of the physician fell to the box of the buggy. The horse went direct to the physician's home, passing the house three times, and grazed all night in a grove near the residence. The wheel tracks of the buggy were found today. This morning the animal appeared at the physician's stable. A passing dairyman discovered the remains in the buggy. An alarm was immediately given, and since that time every effort has been made to capture the assassins. The occupants of a negro's cabin opposite the scene of the murder say they heard two shots early last night. The ball which entered Scruggs' head was of 38-caliber. Another of 32-caliber was found lodged in the frame of the buggy, which supports the belief that two men are implicated. Bloodhounds were put upon the trail of the men this morning, as the tracks of two persons leading from the scene were found in the mud, but on account of last night's heavy rain the dogs could not follow the trail. Dr. Scruggs was a school director and had trouble with the patrons of a school on account of an order promulgated requiring parents to send written excuses to teachers when their children were absent. This caused bitter feeling, and an indignation meeting was held at which the life of the physician was threatened. It is believed that the murder grew out of this trouble. The fact that Dr. Scruggs was shot from the rear, with other circumstances of the assassination, tends to show that the murderers were well acquainted with the dead man's movements and watched his departure from home. Scruggs was taken by surprise, and it is hardly believed that he had any conversation with the assassins.

Killed in Steamer Explosion.

Vancouver, B. C., April 18.—Four people are dead and seven more probably fatally injured as the result of an explosion on the steamer Ramona, which plies on the Fraser river. The accident happened when the boat was in midstream, opposite Fort Langley, thirty miles from Vancouver. Mrs. Harry Morrison of Langley and Mrs. J. Bailey of Mount Lehman were knocked into the water and drowned. Two deck hands, James Mack and Andrew Fhipps, were struck by one of the flying boiler plates and instantly killed. A. Bower, the purser, J. Maynard, mate, and Victor Nowell, the fireman, were burned so badly that they cannot recover. Four Indians were dreadfully scalded, and only one of these is expected to recover.

Large Lien on Paper.

Chicago, April 18.—The largest mortgage ever placed on a newspaper was filed with the county recorder yesterday. The document was signed by H. H. Kohlman and mortgaged the property of the Chicago Herald company for \$3,600,000. The mortgage is made in favor of the Illinois Trust and Savings bank, in trust for the holders of \$3,600,000 worth of bonds recently issued by the Chicago Herald company.

SHOT DEAD IN WOODS.

Evan Bledsoe Killed for Clandestinely Meeting Young Woman.

Richmond, Va., April 18.—Because he had been meeting a girl clandestinely Evan Bledsoe has been shot to death. Bledsoe left his home at Blackwater last Saturday to go hunting. His dead body was found several hours later in the woods. A letter addressed to him was taken by his mother from the postoffice. It was written by a young woman, who told him that her brothers were very angry, at his attentions to her and that he must not meet her at the place agreed upon, as he would be killed. Later his body was found. He had been shot from behind. No arrests have been made.

Lawyer Dies from Opium.

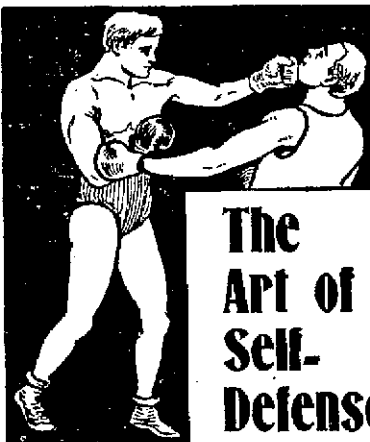

New York, April 18.—J. W. Willard, a lawyer of Bedford, Ind., died at the Clarendon hotel here today from an overdose of opium. A coroner will investigate the death.

Dr. Chrisman Is Dismissed.

Emporia, Kan., April 18.—Dr. Oscar Chrisman, the founder of child study, who over a year ago created a sensation before the Mothers' congress, which met at Des Moines, Iowa, by the assertion in a lecture that women alone were capable of love and men were incapable, has lost his chair in the Kansas State Normal school. His relations with the president and faculty have been strained ever since his notable lecture, and it is thought influences were brought to bear on the regents against him.

Sues Her Father-in-Law.

Logansport, Ind., April 18.—The case of Margaret Winklerblock against her father-in-law, Andrew W. Winklerblock, the Chicago lumber dealer, is on trial here. The demand is \$10,000, alleged to be for services to the plaintiff as stenographer in the Chicago office.

The Art of Self-Defense.

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harbor for the germs of disease which find a lodging only when the blood is impure and corrupt.

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes Mr. Wm. Rietter, of Red Oak, Montgomery Co., Iowa. "While in the southwest, three years ago, I got poisoned with poison ivy. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to make my pocket-book lighter. I then began taking Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I took in all ten bottles and got entirely cured."

Matt J. Johnson's Great Blood and Rheumatism Cure.

For That Lame Back... 6088 For That Rheumatism

(Sixty-eighty-eight)

Williamson, Ill., Jan. 3, 1901. Matt J. Johnson Co., West Superior, Wis.—Gentlemen: My wife for several months had been afflicted with an acute attack of rheumatism. Tried Mount Cernus (Michigan) medicinal springs and other health resorts, but found little, if any relief. My attention was called to your GREAT BLOOD AND RHEUMATISM CURE, 6088, and she had scarcely used one bottle of the remedy when my wife showed rapid improvement. She continued the use of the medicine and when the third bottle was used, she was able to resume her household duties. I cheerfully recommend the medicine to any one afflicted with rheumatism. Very Resp. civilly, DAVID FORSYTHE.

FREE TRIAL. We guarantee 6088 to be free from all opiates, salicylates, mercuries, iron, cocaine and all poisonous drugs. On taking half a bottle and you are not satisfied, return bottle and your money will be refunded.

**Prof. Funk's Success**

In curing disease is evidenced by the steadily increasing demand for his services. Nature's powers of healing proves a blessing to chronic sufferers and brings health and strength to the weak. Many have given testimony of the benefit received and cheerfully tell what this mode of treatment has done for them. Will mention that of a lady over fifty years old. Has had stomach and bowel trouble and constipation for many years. Her head ached almost constantly, due to chronic gastritis; her bowels did not act without the daily use of purgatives. She says

"I am glad to say that I have taken Magnetic Treatment by Prof. Funk. I have taken but three treatments and can honestly say I have had more relief from headache and pain in my stomach since I commenced treatment, than I have had from all the medicine I have taken for years. I cheerfully recommend Prof. Funk's method to all who have been suffering as I have been."

**MRS. HERMAN KREBS,**  
Janesville, Wis.

Prof. Funk treats all manner of disease, acute or chronic, without the use of drugs, surgery or mechanical appliances of any kind. Investigate this method of healing, it will cost you nothing and may mean health and strength for you. He treats all honestly, if he can not help you he tells you so and gives every one the benefit of examination and consultation absolutely free. There is nothing mysterious or supernatural about this method and he is always willing and glad to explain Magnetic Healing to any one interested and extends to the suffering a cordial invitation to investigate his method of healing. He has cured others, he can cure you. Office, opposite post office. Office Hours: over McDaniels & Achterberg's tailor and fur-nishing store. 9 to 12 a.m. 1:30 to 5 p.m. 7 to 9 p.m.

## AMUSEMENT NOTES

Anna Held, as adorably pretty and chic as ever is constantly adding fine touches of art to her comedy work and is now quite the excepted comedian. Through study and hard work she has mastered the English language so readily and cleverly that it is hard to believe that only a few years ago she was only understood by French speaking people. In the title role of her new play, "Papa's Wife," which is founded on two French vaudevilles by Harry B. Smith and Reginald De Koven, Miss Held is a revelation. Mr. F. Ziegfeld, who is managing Miss Held's tour has given the play a most elaborate production

and everything that is bright, attractive and up-to-date has been introduced. The company with few exceptions is the same as was seen during its metropolitan engagement. Mr. Charles A. Bigelow does some bright comedy work, and fairly shares honor with the lovely, twinkling star. The company is well supplied with pretty young women, who have little also to do than wear handsome gowns and look pretty.

John Griffith with an able company will appear at the Grand tonight in "Faust." Mr. Griffith's Mephisto differs radically from that of other actors who have been seen in the role here. Mr. Griffith makes the devil as black as he is painted, and his face, by which the audience alone can reach his thoughts, betrays by dropping lip, sneering smile or side glance the malignity of the fiend back of his prettiest speeches, for example, to Marguerite. The staging of the play is said to be an exact reproduction of the quaint, quiet yet charming city of Nuremberg, with its old time simplicity and quiet mediaeval life. The effects wrought in several of the acts being marvelous.

In its new dress, with novel mechanical features and beautifying scenery, will be seen at the Myers Grand, Friday, April 19, and that natural comedian, Jule Walters, who has transformed himself into a tramp 9,751 times for the amusement of theatre goers from New York to Honolulu, supported by the beautiful Louise Llewellyn, and a large company of musical merit. Two strong features during the performance are the "Little German Band" and the "Section Hand Quartette."

trouble somewhere, and nervous prostration is sure to follow.

You ought to know that indigestion, exhaustion, womb displacements, fainting, dizziness, headache, and backache send the nerves wild with affliction, and you cannot sleep.

Mrs. Hartley, of 221 W. Congress St., Chicago, Ill., whose portrait we publish, suffered all these agonies, and was entirely cured by Lydia E. Ents 22 Eggs; Then Dies.

Point Pleasant, W. Va., April 18.—In a saloon at Copehart, this county, some one read aloud from a newspaper about a man who had eaten two dozen hard-boiled eggs. Sam Smith, aged 22, declared he could do that. A wager was made and Smith began. He finished the first dozen in record time, then complained of feeling ill, but kept at his task until twenty-two eggs with salt and vinegar had been swallowed. He was taken home and died in half an hour, despite the efforts of two doctors.

How Coolies Get Free Burial.

You see, no Chinaman would set foot on a vessel unless he had every assurance that in case he died he would be put away in a first class coffin and brought into port. If we didn't all contract to do that none of us would carry a cooly, not if we offered them free passage, so we promise to supply a "chop dollar" coffin in case of death and to carry the cooly back to the port from which he sailed, and that costs money.

This business hadn't gone on a month before the cooly saw his chance to beat the company and began to do it. You see, a cooly who is about to die, or wants to pass in his checks, and they can do it just whenever and wherever they want to, steps on a steamer, say for Hongkong, and he only pays about \$2 for a deck passage. Then when he gets good and ready he just stops breathing, and the company has to provide a coffin and pay the freight back home.—Scribner's.

Readings.

I have known some people in great sorrow to fly to a novel or the last light book of fashion. One might as well take a rose draft for the plague. Light reading does not do when the heart is really heavy. I am told that Goethe when he lost his son took to studying a science that was new to him. Ah, Goethe was a physician who knew what he was about! In a great grief like that you cannot tickle and divert the mind. You must wrench it away, abstract, absorb, bury it in an abyss, hurry it into a labyrinth.—Butcher.

## DEADLY BATTLE IN A PRISON.

Attempt of Convicts to Escape Results in Killing of One.

Santa Fe, N. M., April 18.—An attempt of three convicts at the penitentiary to effect their escape today resulted in the killing of Convict George Stephenson, the mortal wounding of Convict Simmons, the wounding of Convict Jose Monica Sena, Captain of the Guard Felipe Armijo and Guard Pedro Sandoval. George Stephenson, convicted of murder, had in some manner armed himself with a revolver. William Simmons, sentenced for cattle stealing, and Frank Carper, also sentenced for cattle theft, were in the conspiracy to break out. They were armed with iron bars. Stephenson attacked the guard, which was in the dining-room unarmed. He shot Pedro Sandoval. Captain Armijo ran for a shotgun and on his return exchanged shots with Stephenson, each being wounded. Superintendent H. O. Barsom came upon the scene with a rifle and sent two bullets through Stephenson's heart. A moment later Armijo, though seriously wounded, shot Simmons, fatally wounding him. Carper weakened when he saw his partners down and surrendered. Neither of the wounded guards will die. During the fight Jose Monica Sena, a convict, was slightly wounded.

## DOINGS OF THE LAW MAKERS.

ILLINOIS.

Wednesday, April 17.

A number of appropriation bills were sent to the senate. Among these were: Appropriating \$1,000,000 for the payment of officers and members of the next General Assembly and for the salaries of the officers of the state government for two years; appropriating \$75,000 to the University of Illinois at Champaign to replace buildings destroyed by fire; appropriating \$30,000 for expenses of the National guard. Joseph E. Bidwell was appointed to the office of chief grain inspector at Chicago by Governor Yates.

MICHIGAN.

Wednesday, April 17.

The senate passed the bill of Senator Humphrey, entitled, "To prevent prize fighting in Michigan." The introducer of the bill is a clergyman, but he recognized that if his measure were to pass some concessions would have to be made to the sporting element, and up to the suggestion of Senator Marlin he consented to a provision permitting a series of contests up to ten rounds. Senator Helme said this provision would permit almost any kind of a fight, and that if the clerical member desired to put a stop to prize fights he was being "bamboozled." The bill was passed by a vote of 17 to 7.

Prince Kropotkin on Labor.

Chicago, April 18.—"When we shall succeed in keeping in mind the great inspiration that there is something grander than the accumulation of profits, then we will be able to do something for humanity by making work attractive instead of degrading." So said Prince Peter Kropotkin, the Russian socialist, to an audience which last evening crowded the gymnasium of Hull House to overflowing. "The great problem of the twentieth century," said Prince Kropotkin, "is how to render work attractive and not repulsive to mankind. The socialists who not many years ago advanced the argument that work could be made blessed were regarded as Utopians, but their ideas are fast finding acceptance in these days of invention."

**You're Not In  
It**

This spring, unless you have a nobby well tailored TOP COAT, (at least that is what Mr. Grundy says) You will find the most up-to-date styles in our line of light weights. Not heavy enough to be a burden in the middle of the day, but just right to keep out the chill, pneumonia laden air of morning and evening. And they're swell, as we have them tailored.

Eyes Are Accommodating

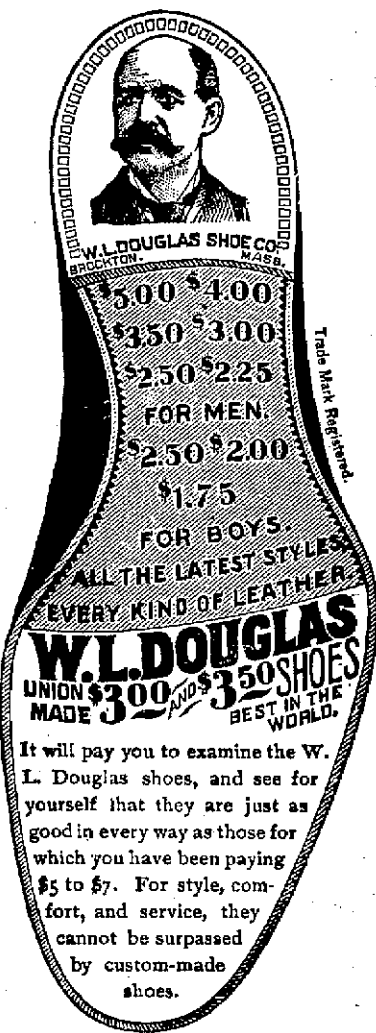

They'll see—maybe quite well, through a pair of glasses you pick from a basket—but nature beats a sheriff in forcing a collection of her debts—and fitting one's self to glasses is risky—terribly risky—the assurance we give you of furnishing the proper glasses places you beyond all risk.
